Market Themes

1. Markets have encountered a somewhat more challenging landscape recently, evidenced by an evolving Fed message, policy gridlock in Washington, and the lingering challenges presented by the Delta variant.
2. The financial health of consumers remains strong, which may serve to sustain economic momentum moving forward.
3. Investment returns this quarter returned to a profile reminiscent of the first wave of market stability that occurred in the spring of 2020, with U.S. large cap and growth equity names outpacing their small cap and value counterparts.

Strength of the Consumer

The financial health of the consumer (whose spending comprises approximately 70% of GDP) remains robust, evidenced by record high household net worth and very low indebtedness.
