

SECURE 2.0 Act Paves the Way for Big Changes

Helping Clients Prosper

By: Ryan Gardner, Managing Partner and Head of Defined Contribution and Nicholas Breit, CFA, CFP®, Partner, Director of Financial Planning January 2023

The SECURE 2.0 Act of 2022 ("SECURE 2.0") is chock-full of provisions – 92, in fact – aimed at improving Americans' preparedness for retirement. Like SECURE Act 1.0 (passed December 2019), this latest round of legislation provides workers with greater access to retirement plans and further encourages retirement savings. This article highlights key provisions of SECURE 2.0 which are likely to have the greatest impact for savers (plan participants) and retirement plans going forward.

Access

For some Americans, not having access to a workplace retirement plan has perpetuated the challenges of planning and saving for retirement. Within SECURE 2.0, a provision will now provide multi-year tax incentives for smaller employers (generally with 50 or fewer employees) to adopt a new retirement plan. SECURE 2.0 has also introduced a provision which will require Automatic Enrollment and Automatic Escalation for *new* 401(k) and 403(b) plans beginning after December 31, 2024. While there are exceptions for certain types of plans (generally non-ERISA plans) and for smaller employers, mandating automatic features will help ensure more Americans are enrolled and actively saving in workplace retirement plans.

Increased Savings

Some of the most meaningful provisions within SECURE 2.0 are designed to promote retirement savings.

- Increase in Catch-Up Contributions (effective for taxable years beginning after December 31, 2024)
 - Current catch-up contribution limits allow those age 50 and older to contribute an additional \$7,500 (eligible plan) or \$3,500 (SIMPLE).
 - SECURE 2.0 will allow those within the age range of 60-63 to make additional catch-up contributions the greater of \$10,000 for eligible plans (\$5,000 for SIMPLE plans) or 150% of the current year catch-up contribution limit (indexed for inflation).
 - It is important to note that, for participants taking advantage of catch-up contributions and whose wages exceeded \$145,000 in the prior calendar year, SECURE 2.0 has mandated that such participants make catch-up contributions on a Roth (after-tax) basis (for tax years beginning after 2023).

Please consult with your advisor, attorney and accountant, as appropriate, regarding specific advice. Past performance does not indicate future performance and there is risk of loss.

• "Rothification" of Employer Matching and/or Non-Elective Contributions (2023)

• While not mandatory, SECURE 2.0 includes a provision allowing plans to offer participants the ability to take some or all of matching and/or non-elective employer contributions as Roth contributions. If so elected, the employer Roth contribution would be includable in employee income; such contributions must be fully vested at the time they are made.

• Further Expansion of Roth Retirement Accounts (2023)

 SECURE 2.0 authorizes the creation of SIMPLE Roth accounts and SEP Roth accounts, allowing individuals additional flexibility in choosing whether to save for retirement on a pre-tax ('traditional') or after-tax (Roth) basis.

• Inflation Adjustments for IRA Catch-up Contributions (2024)

 While IRA "regular" contribution limits have been indexed for inflation since 2002, the same has not been true for IRA catch-up contribution limits; beginning in 2024, IRA catchup contribution limits will finally be indexed for inflation.

Optional Treatment of Student Loan Payments as Elective Deferrals for Purposes of Matching Contributions (effective for plan years beginning after December 31, 2023)

- o Applies to qualified retirement plans (401(k), 403(b), 457(b) plans and SIMPLE IRAs)
- o Plan Sponsors may provide matching contributions on qualified student loan payments
- o Student loan match must be subject to the same vesting schedule as the regular match
- Employee must be eligible to receive matching contributions, and all employees eligible for matching contributions must be eligible for a student loan match

• Emergency Savings Accounts (effective for plan years after December 31, 2023)

- o Plan-linked emergency savings account (PLESA)
- Participants may make Roth (after-tax) contributions until account balance reaches \$2,500
 (although Plan Sponsor can set a lower limit)
- Employee contributions are match-eligible (not made to PLESA)
- o Automatic enrollment option available (employer)
- o Highly compensated employees are not eligible
- o Participant must be able to take emergency savings distributions at least once per month
- Distributions are not subject to early withdrawal penalties and are not taxable

• Additional Flexibility for 529 College Savings Plans (2024)

One of the more unique surprises of SECURE 2.0 is the provision to allow unused 529 college savings funds to be rolled over directly to a Roth retirement account, beginning in 2024. The 529 account must have been maintained for at least 15 years; any contributions made to the 529 account within the prior five years are ineligible for a rollover; the receiving Roth account must be in the name of the 529 plan beneficiary; the annual limit for such rollovers is limited to the annual IRA contribution limit, less any other IRA contributions made for that same year; and the maximum allowable rollover amount is \$35,000 during an individual's lifetime.

Expanded Distribution Options

While there are some "revenue boosters" included within SECURE 2.0, there are also many provisions geared toward helping participants keep retirement money invested longer.

• Required Minimum Distributions ("RMDs") Extended (effective January 2023)

- The RMD beginning age has gradually increased from age 70½ to 72 in recent years and will now expand further to age 75 over the coming decade.
 - RMD age 72 individuals born in 1950 or earlier
 - RMD age 73 (starting in 2023) individuals born between 1951-1959
 - RMD age 75 (starting in 2033) individuals born in 1960 or later
- Provision applies to Individual Retirement Account ("IRA") holders as well

• Elimination of Pre-Death RMD for Roth Accounts (effective January 1, 2024)

- O SECURE 2.0 eliminates the pre-death distribution requirement for in-plan Roth amounts
- O This change does not apply to distribution amounts prior to the effective date

• Withdrawals for Certain Emergency Expenses (effective for withdrawals made after December 31, 2023)

- o In-service distributions from eligible retirement plans (401(k), 403(b) and 457(b) plans)
- May withdraw up to \$1,000 for emergency expenses (not subject to tax on early distributions)
- o Only one emergency expense (up to \$1,000) is allowed per year
- o Distribution may be repaid within three years or future withdrawals may be limited

Penalties for Missed Required Minimum Distributions (RMDs) (2023)

The penalty for not withdrawing the full amount of a required minimum distribution (RMD) will decrease from 50% to 25%, with a further reduction to 10% for taxpayers who correct the error in a timely manner.

• Inflation Adjustments for Qualified Charitable Distributions (QCDs) (2024)

- The annual limit for QCDs has remained at \$100,000 since its 2006 inception; beginning in 2024, the annual QCD limit will be indexed for inflation.
- Also of note, while the RMD age will continue to rise over the coming decade, the eligible age for making a QCD remains at 70½.

Summary

While this article touches on key themes of SECURE 2.0, there are many more provisions which will help redesign the retirement plan landscape to build a more sustainable and effective framework for employees to save and spend in retirement.

In the coming weeks, Fiducient Advisors will publish additional resources for a more comprehensive review of the provisions covered above, as well as the administrative provisions included in SECURE 2.0. For any questions in the meantime, please reach out to a member of your service team.

About the Authors

Ryan Gardner
Managing Partner,
Head of Defined Contribution

As Managing Partner and Head of Defined Contribution, Ryan services institutional clients by providing fiduciary governance oversight, plan design analysis and implementation, fee disclosure review, vendor search and selection, and investment analysis. Ryan is a member of the firm's Defined Contribution Business Council as well as Chair of the Defined Contribution Strategic Oversight Committee. Ryan helped to establish Fiduciary Investment Advisors, LLC in 2006, which combined with Fiducient Advisors in 2020. Prior to co-founding the firm, he was with the PRIME Asset Consulting Group at UBS Financial Services Inc. Ryan is a member of the Pension Committee of the Women's Tennis Benefit Association, which administers the pension plan for professional women tennis players. Ryan received his Bachelor of Science in Business Administration from the University of Hartford Barney School of Business, where he also serves on the Board of Visitors. In his free time, Ryan enjoys traveling to Aruba with his family, ice hockey and working outside in the yard.

Nicholas Breit, CFA, CFP® Partner, Director of Financial Planning

Nick provides investment consulting services to high net worth investors, corporate executives, family trusts and nonprofit organizations. He services clients by providing advice and expertise on asset allocation, portfolio design, investment policy statements, manager search process and overall investment management. Nick heads the firm's Financial Planning Committee. Prior to joining the firm in 2007, Nick was a Senior Financial Planner with The Ayco Company where he provided comprehensive advice to affluent clientele. Nick earned a Bachelor of Arts in Finance and Economics from the University of Illinois at Urbana-Champaign. He obtained the designation of Certified Financial Planner (CFP®) from the College of Financial Planning and is a CFA® charterholder and member of the CFA Society of Chicago. Nick enjoys spending time with his family, playing golf and long-distance running (having completed four marathons and multiple half-marathons).
